

A refreshing & straightforward proposition...

“Listening, Understanding, Delivering”

FRONTIER
VOICE AND DATA LIMITED

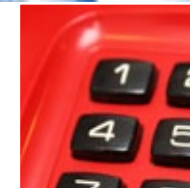

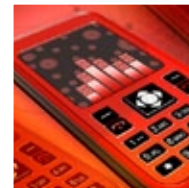

Frontier is an independent Telecommunications organisation that is 100% Channel focussed.

Because we are independent we can offer a fully comprehensive range of products and services that are all best in class.

- **CPS / WLR – call and lines**
- **Data / MPLS Networks / Networking**
- **Broadband**
- **Full Conferencing Services**
- **Inbound numbering and call handling**
- **IP PBX Solutions**
- **MyIP hosted telephony solutions**
- **Mobile networks and data**
- **Online data back up**

Our success is built on helping our Channel Partners to grow revenues and profitability. We pride ourselves on having a simple and straightforward approach that not only delivers real profits for our partners but has the flexibility to match each businesses individual requirements.

- **We are a leading BT wholesaler. That means that all customers get the very best in network services without the hassle of managing their customer service and support**
- **We have a straightforward and attractive profit share model that gives you the flexibility to offer great rates to your customers and to maximise your own profits.**
- **We have real integrity as we don't have lots of hidden costs like minimum call charges, call set up fees, call rounding or charges for collecting bills**
- **All Channel Partners get a dedicated business support manager who will help you to develop your activities. This is supported by industry leading marketing programmes, full training and practical white label services.**

What our existing Channel Partners say...

"One of the qualities that we appreciate most is the flexibility that Frontier provides. We've been able to use the profit share model to be flexible on pricing and made bespoke arrangements on some deals to help us to win and retain customers. We would not get this level of flexibility elsewhere and it's important for our business"

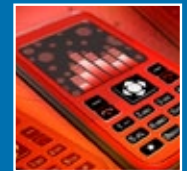

"For a business our size the marketing support we receive from Frontier is invaluable. Frontier's marketing team has even helped to build our new website and marketing collateral and it's been a big support to our business".

"As a business we took the decision to sign up as a partner with Frontier because of the great commission split we could enjoy, the level of support we were able to experience and the fact that Frontier recognises that the customers are ours."

"We moved to Frontier because we felt that we would enjoy a better and more flexible relationship than we had been experiencing"
